## **E-mail Concerns: Your Help Needed**

On numerous occasions, the officers of the club have attempted to share with club members via e-mail important information pertaining to club business. The club roster provides the source of club member e-mail addresses. Unfortunately the membership roster contains many incorrect e-mail addresses, therefore the e-mail message cannot be delivered. This results in those members not being able to receive the information.

In an effort to correct this problem, please check the club roster as to the accuracy of your e-mail address. If the address is incorrect, please send the correct address to each of the following. If you do not have a club roster and want to be sure your e-mail address is correct, please send your e-mail address to those listed below.

Thank you for your help with this matter.
