

From Larry Hasiak:

In conjunction with the National Trek Rally in June I am heading up a Habitat for Humanity project. If you have never volunteered for Habitat you are missing a great experience. You will come away feeling great and that you have really helped someone. You DO NOT have to be a carpenter or strong to help. There will be a job for everybody regardless of size or age. All you need is a willingness to help. The project is set for May 31 thru June 5. We will all meet at the Amana Colonies RV Park campground for an orientation meeting on Sunday May 30, then it is off to the work site on Monday.

The final schedule for building is not complete at this time but Habitat will give me an update when plans are complete which I will pass on to volunteers. The work site is about 20 miles from the Amana Colonies RV Park which is holding 30 sites for those working on the project with full hookup campsites for \$21 + tax per night. There are also several other campgrounds in the area including 7 Corps of Engineering campgrounds on Lake Coralville. I have attached a registration form to fill out and return to me. If you have questions please call or email me.

See the below registration form.
